

Use-Case Prioritization Template

Implementing AI Across the Institution · Dr. Kollin Napier, Chief Artificial Intelligence Officer, MAIN

Name: _____ Institution: _____ Date: _____

List the AI uses you are considering across academic, administrative, assessment, and student support functions. Rate each on value, feasibility, risk, and mission alignment (high, medium, or low), then mark your top one or two priorities to carry into your implementation plan.

#	Candidate AI use case and function area	Value	Feasibility	Risk	Mission alignment	Priority (1-3)
1						
2						
3						
4						
5						
6						
7						
8						

Tip: a strong first move is usually high value, high feasibility, and low risk with clear mission alignment, not the most ambitious idea.
